

ForwardHealth Update on Urgent Prior Authorization Requests

March 27, 2020

For urgent prior authorization requests for fee-for-service members, contact ForwardHealth Provider Services at 800-947-9627 for assistance with expediting the prior authorization process. An urgent, medically necessary situation is one where a delay in authorization would result in undue hardship for the member or unnecessary costs for Wisconsin Medicaid as determined by the Division of Medicaid Services. In general, urgent requests will receive a response within five business days. Additional information regarding urgent services is available ([link](#)).

Note: Prior authorization is not required for emergency services, defined as services that are necessary to prevent the death or serious impairment of the health of the individual. Reimbursement is not guaranteed for services that normally require prior authorization that are provided in emergency situations; those services still must meet all ForwardHealth coverage requirements, including medical necessity.

This Action Alert 08 and others are available on the ForwardHealth website ([link](#)).
